

The Clark County Regional Flood Control District (District) would like to invite you to participate in an Environmental Permitting Workshop. The purpose of the Workshop is to provide participants with an overview of the environmental permitting requirements associated with a variety of construction and development projects in Southern Nevada. The Workshop is intended to aid engineers, planners, project managers, and other agency representatives in getting projects through the environmental and regulatory review process as quickly and easily as possible. A key focus of the Workshop will be permitting associated with the Clean Water Act—specifically sections 404 and 401.

When:

Wednesday May 25, 2022 8:00 a.m. to noon

Where:

Las Vegas Valley Water District, 1001 S. Valley View Blvd., Las Vegas, NV 89153 Mead Rooms

Who Should Attend:

Participants that could benefit from the Workshop include a variety of project proponents including engineers, land use planners, environmental consultants, project managers and representatives from county and municipal agencies.

Topics:

- Update from the Clark County Regional Flood Control District
- Clean Water Act Section 404 Permitting
- Clean Water Act Section 401 Permitting
- Permitting Scenarios and Case Studies
- Q&A Session

Speakers:

- Zachary Carter, Environmental Scientist III with the Nevada Division of Environmental Protection
- John Tennert, Environmental Mitigation Manager for the Clark County Regional Flood Control District
- Jennifer Thomason, Senior Environmental Scientist with NewFields and formerly Senior Project Manager with the U.S. Army Corps of Engineers
